

## WAREHOUSE SOLUTIONS

### FORKLIFT SOLUTION

Far distance 1D and 2D barcode scanning is enabled by Powerscan AR handheld readers. Combined with SD9030 dongle and **Rhino II** vehicle mount computer, it represents a complete solution for forklifts.

### PICKING ON PRODUCTION LINE

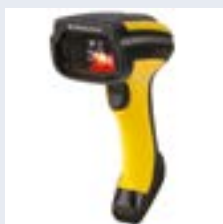

In warehouse operations, workers have to track and report the picked parts in real time through rugged and ergonomic mobile computers like **Falcon X4** and **Skorpio X4**.

### WAREHOUSE MANAGEMENT

Datalogic offers a wide array of solutions including handheld scanners, smart cameras, fixed readers and mobile computers like **Memor 10** deliver error-free warehouse operations processing.

### *Datalogic Recommended Products:*
